

## **4. Operation**

4.1 Operator Qualifications. An automotive lift operator shall have the following qualifications:

- (1) ability in written or oral communications as demonstrated by one of, or a combination of, the following: high school diploma or certificate of equivalency, aptitude test or job experience;
- (2) ability to understand the mathematical, mechanical and electrical principals of automotive lifts as demonstrated by one of, or a combination of, the following; aptitude test, training program, technical-vocational school, school of higher learning or job experience;
- (3) demonstrated physical ability to carry out lift operator responsibilities in a safe manner.

## **4.2 Operator Training**

4.2.1 The owner or employer shall ensure that operators of automotive lifts are instructed in the safe use and operation of the lift using the manufacturer-provided instructions and warning labels and the Automotive Lift Institute publications, “Lifting It Right” and “Safety Tips”.

4.2.2 ANSI/ALI B153.1-1990 requires the lift manufacturer to supply operating instructions, general safety information, safety tips and warning labels with each lift manufactured. The owner or employer shall display these materials in a conspicuous location in the lift area.
